- Trudy Lane
- Catherine Lane

Roadwork Notice for Our Community

Weather permitting, road operations are scheduled to begin **5/18/2026**. The first phase should take about **three rain-free days** to complete. Please avoid parking along the roadside during this time.

The process will include:

- An **oil and stone overlay**
- About a week later, crews will **Vac-truck loose stone**
- An **asphalt overlay** will then be applied

Crews will do their best to keep traffic moving, but delays will happen. Once the oil is sprayed, it must be covered with stone before vehicles can drive on it, so please allow extra time for commutes and appointments.

For everyone's safety:

- Maintain a safe distance from heavy equipment
- Pull into driveways when possible to let application vehicles pass

Information will be posted on the Town website and Facebook page. There is also an example of the finished product on display with the Town Clerk at the Town Hall.

The following link will demonstrate the chip sealing process.

We appreciate your patience—this short inconvenience will result in a much better road.

~Thank you!
